Request Tab/Form Edit Icon

The form default to View mode.

Current Visible formula:

If(ReqEditlbl=true,false,true)

Current OnSelect formula:

EditForm(frmRequestVE);UpdateContext({ReqEditlbl:true})

Request Tab/Form Save Icon

When the form is placed in Edit mode, the Save and Cancel icons appear.

Current Visible formula:

If(ReqEditlbl=true,true,false)

Current OnSelect formula:

UpdateContext({ReqEditlbl:false});SubmitForm(frmRequestVE);ViewForm(frmRequestVE)

Request Tab/Form Cancel Icon

Current Visible formula:

If(ReqEditlbl=true,true,false)

Current OnSelect formula:

UpdateContext({ReqEditlbl:false});ResetForm(frmRequestVE);ViewForm(frmRequestVE)

ReqEditlbl

This label is currently hidden. I had it there to have something to toggle against and also use for testing purposes. Should I be using the other tabs as a mechanism to toggle the visibility on and off versus a label?
