Warren Formula Suggestion Results

Teresa Manually typed Warren's formula into the Items property of her Gallery (copy/paste of formula follows screenshots). She entered a comma after wFilter on the first 2 instances as shown below.

```
With(
  {
    wFilter:
    Filter(
        'Tool Design Support Requests',
        StartsWith(
            'Request Summary Title',
            TxtSearchBox.Text
        ) &&
        (
            ddStatus.Selected.Value = "Status All" ||
            'Request Status'.Value = ddStatus.Selected.Value
        )
    ),
    wOrder:
    If(
        locSortAscending,
        Ascending,
        Descending
    )
  },
  Switch(
    locSortColumn,
    "NeededBy",
    Sort(
        wFilter          ⬅
        NeededBy,
        wOrder
    ),
    "Title",
    Sort(
        wFilter          ⬅
        Title,
        wOrder
    ),
    "ProjectNumber",
    Sort(
        wFilter,
        ProjectNumber,
        wOrder
    )
  )
)
```
