Fred and Wilma rummage through a trunk containing the military presents sent over the years to Fred by Rocky. An innocuous hand grenade and a flight helmet of Rocky's are some of the items, but most interesting to the Flintstones and Rubbles is Rocky's diary, which Fred reads aloud so that he, Wilma, Barney, and Betty learn of Rocky's rescue of French multiple-agent Mata Harrock from German jaller Baron Von Rickenrock, "The Horrible Hun". | Pebbles Flintstone Betty Rubble Hoppy Rubble | 29; 28; 32 | Pebbles Flintstone; Betty | |

When Fred scoffs at Barney's Rock Rogers comic book for its supposedly ludicrous prediction of far-future space travel, he is chastised by Gazoo: "Flintstone, when you laugh, you show not only your tonsils but your ignorance." Leaving their children in Pearl's care, the Flintstone and Rubble couples go for a pleasure drive in Fred's car, only to be caught in freeway traffic. | Pebbles Flintstone Betty Rubble Hoppy Rubble | 29; 28; 32 | Pebbles Flintstone; Betty | |

In Sharepoint, the links in this lookup column work as expected, taking you to the presenter's detail page. The relationship between the two datasources is lost when arriving in PowerApps, though, and it comes in as text data.

Would like to have person's name clickable to take user to last screen (Presenter Detail) showing person's bio. ALSO, there COULD be multiple presenters so need to evaluate and address individually to go to their individual bio page.

About Fred Flintstone

Fred is the handsome husband of Wilma, father of Pebbles and best friend of Barney Rubble, who lives at his house in Bedrock, at 345 Cave Stone Road (in some episodes, 1313 Cobblestone Way or 222 Rocky Way).

Fred Flintstone's most famous and iconic catchphrase is "Yabba-Dabba-Doo!", which is also heard at the beginning of the theme song, "Meet the Flintstones" and the film plus the rest of the franchise.

Ideally, would have same cross-reference functionality on the 'Presenter Detail' page to display a list of the sessions they are teaching — Just like on the Session Detail page. THOSE would then be clickable going to the Session Detail for that session.
