

Masterlist in SharePoint: Title and ID of work package, Prio and other features of my work packages

Action Items in SharePoint: Master ID=ID of Masterlist, multiple action items

PowerApps to 1.create a new work package with multiple items and to 2. Edit existing work packages (edit existing items and add new items)

Start Screen

Button new work package:

OnSelect property: `NewForm('Form new work package');ClearCollect(Items;{LineActionItem:"";LineProjekttyp:""});`

`Navigate('Screen New work package';ScreenTransition.Cover)`

Gallery (named Gallery2) :

Item property: 'Masterlist'

OnSelect property: `Navigate([@'Screen edit and view work package'];ScreenTransition.Cover)`

New work package Screen

Edit Form:

Data Source: ,Masterlist'

OnSuccess Property: `ForAll(Items;Patch('Action Items';Defaults('3400 ILLU Arbeitspakete Items');{Title:LineActionItem;Projekttyp:{Value:LineProjekttyp}};MasterID:'Form new work package'.LastSubmit.ID))`

Gallery (Named Gallery1):

Data Source: Items (Collection)

Default properties of the text inputs: ThisItem.LineActionItem (Named Input Action Item), ThisItem.LineProjekttyp (Named Input Projekttyp)

Save Button (to save row and add a new one:

```
Patch(Items;ThisItem; { LineActionItem: Input Action Item.Text; LineProjekttyp:'Input Projekttyp'.Selected.Value };;Collect(Items; {LineActionItem:""; LineProjekttyp:""})
```

Edit Screen

The screenshot shows a form with the following fields:

- Title: Text input
- Owner: Dropdown menu with "Elemente suchen" search
- Leistungsbeschreibung: Text area
- Fortschrittsgrad: Dropdown menu with "Elemente suchen" search
- Status Arbeitspaket: Dropdown menu with "Elemente suchen" search
- Cluster: Dropdown menu with "Elemente suchen" search
- Objekt: Dropdown menu with "Elemente suchen" search
- Start: Date input (31.12.2001)
- Ende: Date input (31.12.2001)
- SAP#: Text input
- Suffix: Dropdown menu with "Elemente suchen" search
- Werrstromabschnitt: Dropdown menu with "Elemente suchen" search
- PSP-Nr.: Text input
- Modul: Dropdown menu with "Elemente suchen" search

At the bottom, there is a summary row with fields for: Tätigkeits/Bezug, Titel Tätigkeits/Bezug, Prio (set to 1), Status (set to Offen), Projekttyp (set to B&D), SW (set to ja), Wunschrressource (with search), Abteilung, and a grid of checkboxes for G21Q1-G23Q4. A "Formular absenden" button is located at the bottom right.

Edit Form:

Data Source: ‚Masterlist‘

Item Property: LookUp('Mastersheet';ID='Gallery 2'.Selected.ID)

Gallery:

Data Source: 'Action Items' (SharePoint list)

Default properties of the text inputs: ThisItem.ActionItem (Named Input Action Item_1), ThisItem.Projekttyp (Named Input Projekttyp_1)

OnChange property (**but this works very slowly and seems to be bad for the apps performance**):

```
Patch('Action Items';ThisItem;{Title: Input Action Item_1.Text; Projekttyp:'Input Projekttyp_1'.Selected})
```

Save Button (to save row after editing and add a new one):
