5.0 Lorem Ipsum is simply dummy text of the printing and typesetting industry

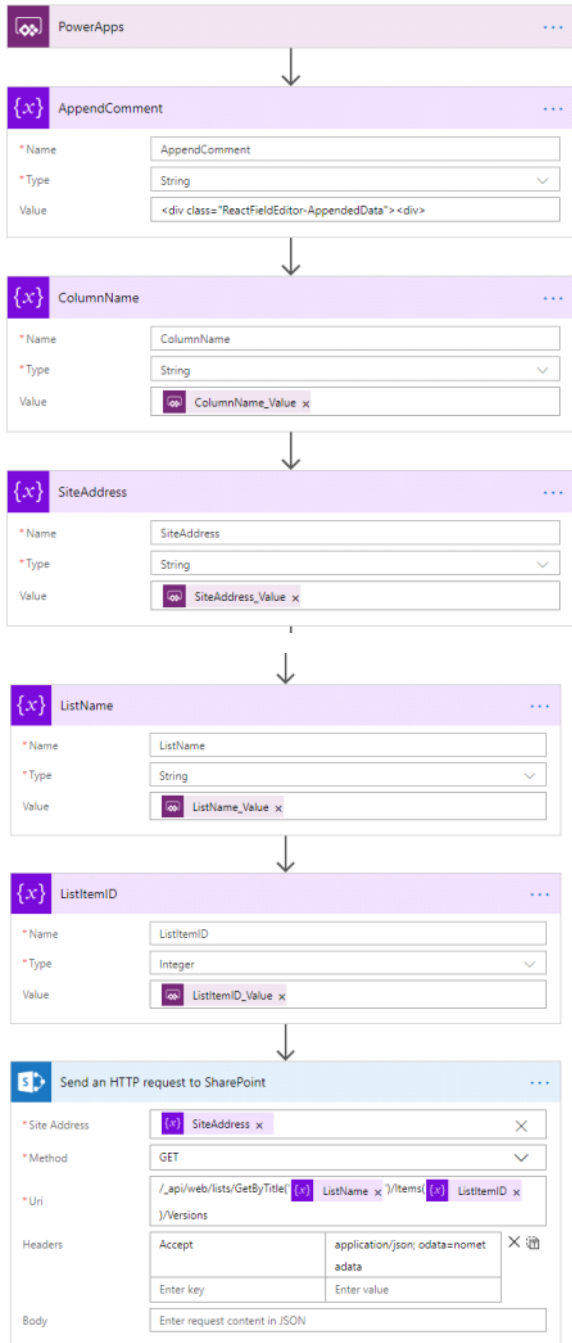

Pranav Naidu (01/17/2019 05:20 PM): 5.0 Lorem Ipsum is simply dummy text of the printing and typesetting industry

Pranav Naidu (01/17/2019 05:20 PM): 4.0 Lorem Ipsum is simply dummy text of the printing and typesetting industry

Pranav Naidu (01/17/2019 05:20 PM): 3.0 Lorem Ipsum is simply dummy text of the printing and typesetting industry

Pranav Naidu (01/17/2019 05:20 PM): 2.0 Lorem Ipsum is simply

In Microsoft Flow:

AppendComment
Value: <div class="ReactFieldEditor-AppendedData"><div>

Dynamic content Expression

Search dynamic content

Variables

- AppendComment

PowerApps See more

- ColumnName_Value Enter initial value
- ListName_Value Enter initial value
- SiteAddress_Value Enter initial value

Dynamic content Expression

Search dynamic content

Variables

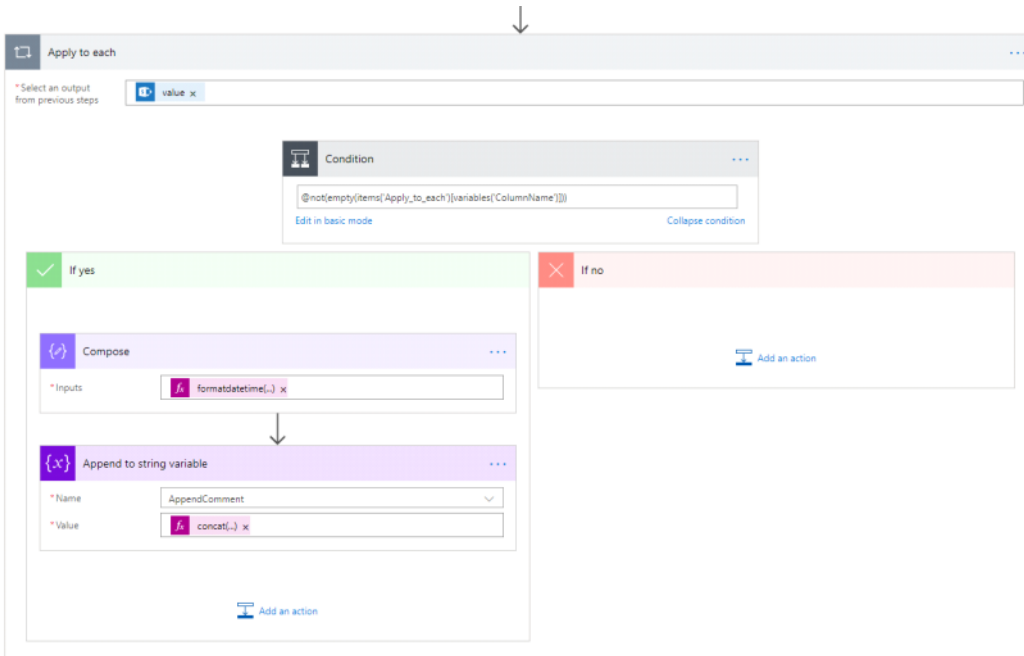

- AppendComment

PowerApps See less

- Ask in PowerApps
- ColumnName_Value Enter initial value
- ListItemID_Value Enter initial value
- ListName_Value Enter initial value
- SiteAddress_Value Enter initial value

Send an HTTP Request to SharePoint
Uri: /_api/web/lists/GetByTitle('@{variables('ListName')}')/Items(@{variables('ListItemID')})/Versions
Headers: Accept application/json; odata=nometadata

Condition
@not(empty(items('Apply_to_each')[variables('ColumnName')]))

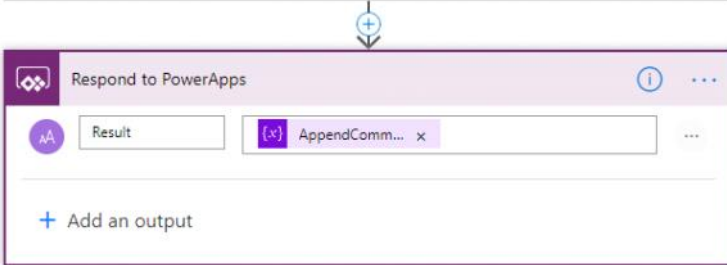

```

Compose
formatdatetime(items('Apply_to_each')['Modified'],'MM/dd/yyyy hh:mm tt')

Append to string variable
concat('<div style="margin-bottom:5px;">',items('Apply_to_each')['Author']
['LookupValue'],' (<span style="color: rgb(3, 131, 135)">',outputs('Compose'),'</span>'),' : ',items('Apply_to_each')
[variables('ColumnName')], '</div>')

```

In PowerApps:

1. Add Flow Action
2. Trigger Flow:
 - a. Set(AppendComments,GetSharePointFieldVersionHistory.Run("<SharePoint Internal Column Name>","<Site URL>","<List Name>","SharePointIntegration.SelectedListItemID))
 - b. OnSelect = `Set(AppendComments,GetSharePointFieldVersionHistory_1.Run("Comments","https://conylvasolutions.sharepoint.com/Workspace","CAB Review",SharePointIntegration.SelectedListItemID))`
- 3.
4. Inset HTML Text Control
5. In HTMLText Property
 - a. AppendComments.result
 - b.
